Mr. Mike Stoker  
Regional Administrator  
U.S. Environmental Protection Agency  
Region 9  
75 Hawthorne Street  
San Francisco, California 94105

Dear Mr. Stoker:

The California Air Resources Board (CARB) is submitting to the U.S. Environmental Protection Agency (U.S. EPA) a revision to the California State Implementation Plan (SIP) from the San Diego Air Pollution Control District (District). The revision consists of amended District rules as listed in Enclosure A.

This SIP revision will correct deficiencies in the District's New Source Review program as identified by U.S. EPA. On April 16, 2018, the District committed to correct the deficiencies, and on April 27, 2018, CARB forwarded the District's commitment to U.S. EPA with a CARB staff commitment to submit the District's amended rules to U.S. EPA by July 31 2019. These commitments allowed U.S. EPA to conditionally approve the rules into the SIP on October 4, 2018.

Enclosed is the complete package submitted by the District to CARB, and CARB Executive Order S-19-010 adopting the District rules as revisions to the SIP. To meet U.S. EPA's criteria for determining that rule submittals are administratively and technically complete, we have also enclosed evaluations of the effects of the rules on emissions, evaluations of the rules' consistency with 40 CFR 51, and other supporting documentation provided to us by the District.
